

Decorating with Squirrels

Christmas was coming! While I was decorating my little Christmas tree, I suddenly remembered something that happened last year...

On a day in December last year, my family and I were decorating the huge Christmas tree in our home. After decorating the bottom of the tree, we stopped because we couldn't reach the top. We tried various methods, such as climbing a ladder, but nothing worked. Also, we didn't have enough ornaments.

While we were unsure what to do, we heard a sound—"Squeak! Squeak!"

"What was that?" I asked.

"I don't know!" my beautiful mom replied.

The sound was getting louder. My lovely sister cried, "Oh my gosh! Squirrels!" My mom looked scared. The squirrels came into our house through the windows.

"Hey! Look at them! They're taking the nuts!" I exclaimed.

"Oh... How cute!" my sister said.

The squirrels climbed onto our Christmas tree carrying the nuts, and after a while, they all came back down. The top of the tree was decorated with nuts!

"Wow!" exclaimed my dad.

But we still didn't have a star on top. So I asked, "Can I make a star with nuts?"

The squirrels agreed, "Jeep! Jeep!"

I took some nuts and started making the star. When I finished, I asked, "Can you help me put the star on the top of the tree?"

One squirrel took my star and climbed onto the tree, but it fell. Then, five squirrels scurried to help it. It worked! The tree looked beautiful! After that, the squirrels left.

That Christmas was the most amazing Christmas. I'll never forget it. I also learned that unity is strength from the squirrels. I was a memorable Christmas.
