

## BAY RESTAURANT

Last Sunday, I was delighted to go to Ocean Park with some of my wonderful friends. After having a lot of fun, we were very hungry, so we chose a relaxing restaurant near the Ocean Park Grand Hotel. The restaurant's name is the Bay Restaurant, which is close to the sea and surrounded by mountains. Can you imagine how relaxing and comfortable it could be to have dinner there? You can see the beautiful sunset!

Two waitresses approached us and were super attentive and friendly. They led us to the most beautiful sea-view table near the window! The decorations were very bright and looked like a place filled with happiness! The atmosphere was romantic and tranquil, suitable for families, friends, or couples to have a wonderful time there. We ordered spaghetti with cheese and Thai noodles, and the noodles were delicious. It had a spicy and sour flavour; the spaghetti was filled with cheese, and I wanted more. The chef was skilled and incredibly polite, which made our lunch experience even better. To our surprise, the food arrived very quickly and was so reasonable that even kids like us could afford it!

There was an array of desserts. I like ice cream with lemon and sugar on top, and the other was vanilla ice cream with a chocolate crisp coating all over it. When we took a gorgeous group photo with our ice cream, a waitress came to us and even offered to capture the image for us! The photo turned out to be perfect. Their kindness made our experience even more special!

I highly recommend this restaurant to you for its excellent food! I also like the plating of food, which makes everything more appetising! I encourage you to enjoy an exceptional experience with your family and friends here, and don't miss the Thai noodles with beef for dinner!
